

## Training on Safety Audit, Risk Assessment and preparation of Safety Management Plan.

A technical circular titled “Integrated approach for development of Safety Management Plan for coal and metalliferous mines” was issued by DGMS on 2<sup>nd</sup> April 2016 mentioning that the successful implementation of Safety Management System in Mines would warrant sorting out perception issues among all stakeholders, and the success may depend on among others, adoption of an integrated approach.

In view of the above, Kratin Solutions Pvt. Ltd., Nagpur is organizing three days training for Internal Safety Auditors on methodology of conducting “**Safety Audit, Risk Assessment and Preparation of Safety Management Plan**” from 4<sup>th</sup> to 6<sup>th</sup> December 2017.

### **Details of the training program:-**

During the three days training, detailed methodology for conducting internal safety audit of mines shall be described and to help participants to understand the process, training activity on how to conduct safety audit has also been included.

The DGMS recommendations circulated vide Cir. No. 08 of 2009 titled “System study and Safety Audit for the purpose of eliminating the Risk of Accidents & Dangerous Occurrences.” shall also be covered.

The other important circulars issued by the DGMS on the topic of Safety Management System are as follows:-

Circular 13 of 2002 “Safety Management Systems – A guideline for implementation”

Circular 02 of 2011 – “Safety Management Systems – Provision for auditing and review”.

During the three days training, technique for effective implementation of the recommendations of the above DGMS circulars will be covered by experienced faculties.
